## FURNITURE COLLECTION 2017/18

# Eden

We are delighted to present our outdoor furniture collection for the 2018 season. In the collection you will discover a wide variety of designs and styles, carefully chosen to reflect current international trends but tailored to suit the unique climate conditions of New Zealand.

The Eden wooden furniture has been manufactured in our Auckland factory where superior quality remains the highest priority. The design team has produced some inspiring new products and have expanded the range of wood colours and finishes. To provide flexibility and to maximise seating capacity, bench seats for most table designs are available.

Complementing our own New Zealand made Eden wooden furniture is an exclusive range of imported woven wicker and aluminium designs, made only in factories that meet our high standards of quality. The trend for outdoor lounge suites continues to be strong, as does low dining tables, and we have catered for this with an impressive range of styles and sizes.

### Outdoor Timber Characteristics

The wood used in our New Zealand made Eden furniture is either certified rosewood or accoya felled from sustainably managed forests. Both woods are very suited to outdoor use due to their inherent strength and density. Unlike kwila both woods are almost non-bleeding.

Small cracks, splits and twisting may appear in the timber, particularly on the end grain and to a lesser extent on the surface. This is natural behaviour of wood suitable for use outdoors, occurring as the natural oils and minerals evaporate with exposure to the sun, wind and rain. It is not a manufacturing defect.

### Outdoor Woven Wicker Characteristics

The woven wicker furniture is made from polyethylene (PE), which is a synthetic material designed to be lightweight but extremely hard wearing. PE is perfect for outdoor use as it is weather resistant to frosts, water and UV light (rated at 3,000 hours). The material is also very easy to clean.

Weaving the PE material around an aluminium frame provides a soft and supple seat surface that moulds to your body for maximum comfort.

### Maintenance – Eden Wooden Furniture

It is essential to establish a regular cleaning and maintenance programme to ensure New Zealand made Eden wooden furniture remains in good condition, colour and appearance. We recommend water based Gecko furniture stain. The product to use is dependent on the Eden model, so please ask in-store for advice on which product applies to your furniture.

It is important to read and follow the instructions on the can carefully before using any outdoor timber product.

### Maintenance – Stainless Steel

The New Zealand made Inlet and Coast frames are 304 grade stainless steel. The stainless steel may still get small surface spots of rust (tea staining). To clean this, a very fine steel wool can be used with Autosol Metal Polish. After cleaning, coat the stainless steel with WD-40 spray to help protect the surface. Locations close to coastal areas require more frequent maintenance due to the effects of salt air.

### Warranty

Eden outdoor furniture made in New Zealand by Danske Møbler comes with a 5-year guarantee for residential use.

Outdoor furniture imported by Danske Møbler comes with a 3-year outdoor guarantee for residential use.

### FURNITURE CARE PRODUCTS

**Grey Wash** for CABO and PACIFIC grey washed accoya timber or grey washed African teak (E2 Chairs).

**White Wash** for SQE, BALI, and INLET white washed accoya timber or white washed African teak (E2 Chairs).
